

THE GEMINI[®]
Inspiring Innovations

You're Partner in Building Innovative Digital Solutions

We are a value-driven organization with a purpose to empower through process improvement and simplification by the implementation of technology.

Who We Are

BUILT EXCLUSIVELY FOR HEALTHCARE. ENGINEERED FOR REAL-WORLD CARE.

We are a healthcare-first software development company built at the intersection of clinical intelligence, regulatory compliance, and scalable technology. Our mission is simple yet ambitious: to make healthcare operations smarter, safer, and more human through technology.

Unlike generic IT vendors, we design exclusively for hospitals, clinics, and digital health innovators. Every solution we build reflects real clinical workflows, ground-level hospital realities, and global health IT standards.

Vision

To become a trusted digital backbone for healthcare institutions—where technology disappears into workflows and care takes center stage

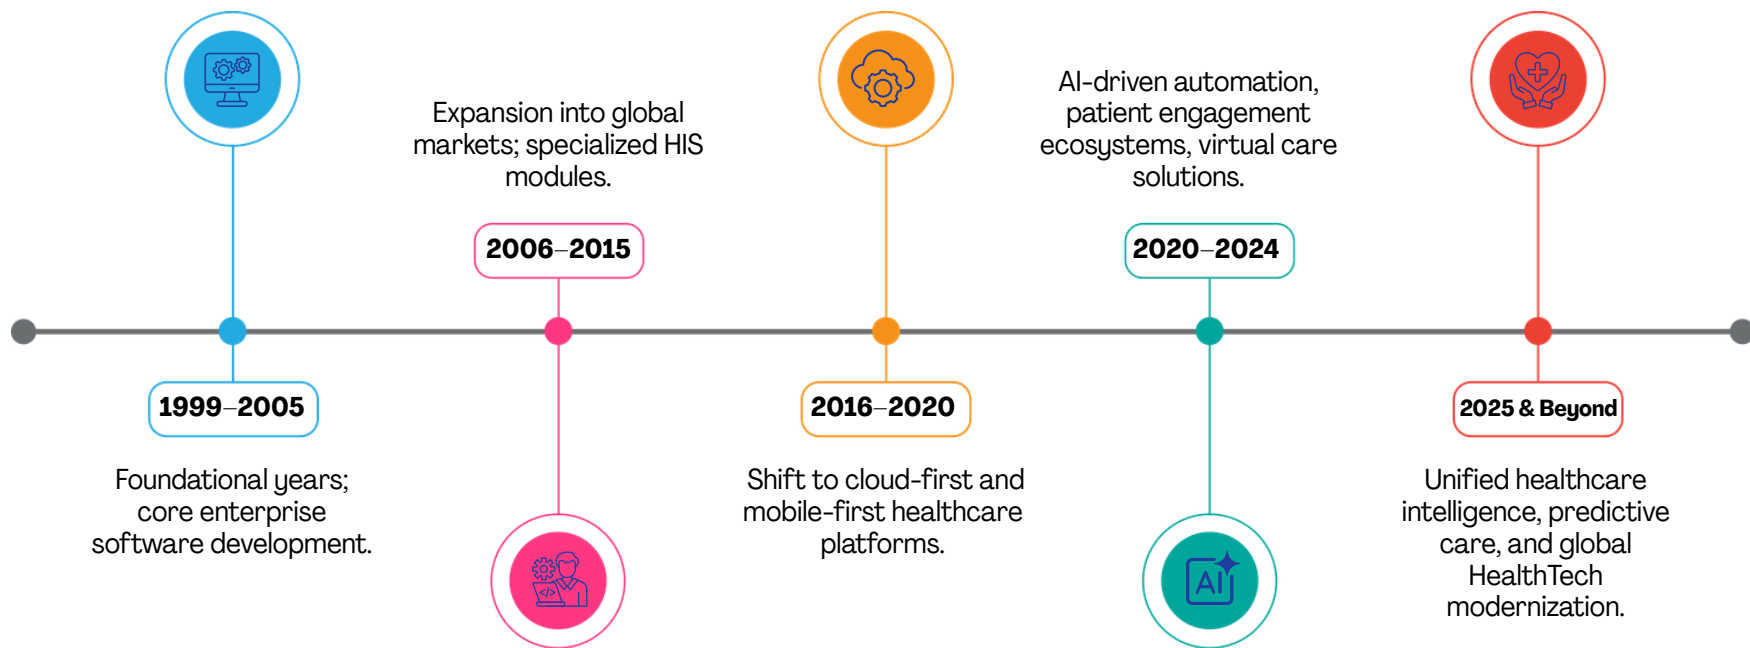

Mission

To digitize and simplify healthcare with smart, secure, and scalable software solutions that enhance efficiency, accuracy, and patient outcomes.

Our Journey

MILESTONES THAT MADE OUR MISSION STRONGER.

”

**Built exclusively
for healthcare.
Engineered for
real-world care.**

What Makes Us Different

DELIVERING SOFTWARE THAT DRIVES EFFICIENCY AND INNOVATION.

AI WITH PURPOSE

Artificial Intelligence that reduces errors, accelerates workflows, and improves outcomes—never technology for technology's sake.

BUILT FOR SCALE

From single clinics to multi-location hospital groups, our systems scale seamlessly.

PARTNERSHIP, NOT JUST DELIVERY

We work as long-term technology partners, offering continuous optimization, training, and support.

HEALTHCARE DNA

Our products are designed with doctors, nurses, administrators, and billing teams—not just for them.

COMPLIANCE BY DESIGN

ABDM-ready, ICD-10 compliant, data privacy-focused, and audit-friendly from day one.

INDIA-READY, GLOBAL-STANDARD

Designed for Indian healthcare realities while aligned with global best practices.

Features :

- Automated Patient Reminders
- PACS–LIS Integrated Workflow
- Speech-to-Text Clinical Notes
- Customizable EHR Templates
- Seamless DICOM Connectivity
- SMS–Email–WhatsApp Alerts
- Unified Mobile & Web Access
- Third-Party API Integration
- Real-Time Remote Monitoring
- Digital Payment Integration
- Smart Patient ID / RFID Cards
- ICD-10 Standard Compliance
- Multi-Level Authorization
- 100+ Advanced MIS Reports
- AI-Based Queue Management
- Role-Based Dashboards
- E-Prescription & E-Consent
- Inventory Auto-Reorder Alerts
- Bed & OT Utilization Analytics
- Multi-Location Centralized Control

IVF HOSPITAL INFORMATION SYSTEM

The Gemini IVF HIS is an intelligent, end-to-end platform that streamlines patient care, cycle tracking, and lab workflows. It enhances accuracy, efficiency, and transparency for modern IVF centres.

Features :

- User Registration & Login
- Profile Management
- Dashboard Overview
- Real-Time Notifications
- Search & Filter Options
- Secure Payment Integration
- Booking / Scheduling System
- Location & Map Integration
- Document Upload & Storage
- Multi-language Support
- Interactive Forms
- Favorites / Saved Items
- Feedback & Ratings
- Push Alerts & Reminders
- Data Sync Across Devices
- Role-Based Access (User/Admin)
- Analytics & Activity Tracking
- Dark Mode / UI Personalization

AI-Powered Automation

WHERE AI STREAMLINES EVERY CLINICAL WORKFLOW

- AI-Powered EMR Documentation
- Speech-to-Text Clinical Notes
- Auto-Generated Discharge Summaries
- Smart e-Prescription & Dosage Validation
- Clinical Decision Support System (CDSS)
- AI-Based Patient Triage & Risk Scoring
- Intelligent Appointment & Queue Optimization
- Radiology & Imaging AI Integration
- Pathology & Lab Result Interpretation
- Automated Coding & Billing Intelligence
- AI-Driven Patient Engagement Chatbots
- Multilingual Voice & Text Assistance
- Manual Prescription Digitization

ABDM-Powered HIS for Medical College & Hospital

ABDM-COMPLIANT | INTEROPERABLE | FUTURE-READY

- ABHA Integration
- HIP / HIU Enablement
- Consent-Driven Data Exchange
- FHIR-Based Interoperability
- HFR & HPR Compliance
- UHI Integration
- Digital Prescriptions & Reports
- Claims & HCX Ready
- Analytics & Public Health Reporting

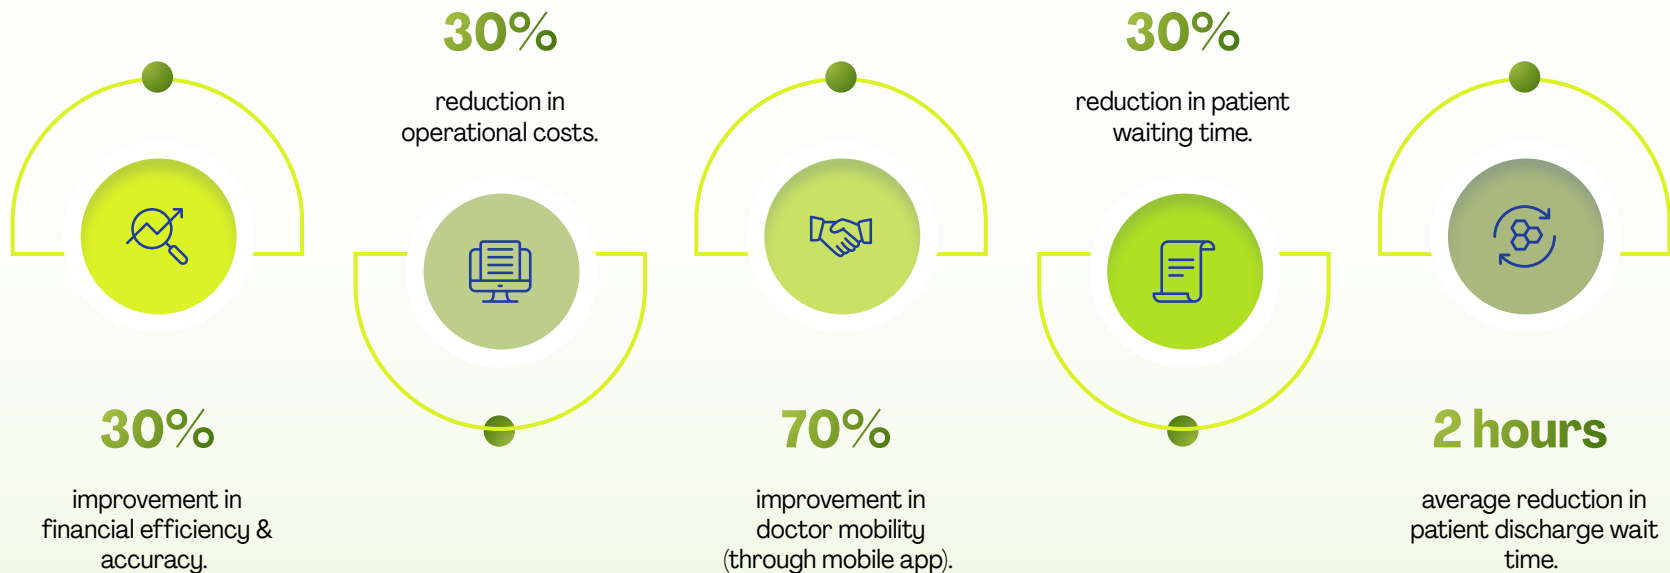

Business Value

- ✓ Faster onboarding
- ✓ Regulatory compliance
- ✓ Nationwide interoperability
- ✓ Improved patient trust
- ✓ Scalable for future ABDM modules

Impact & Performance

PERFORMANCE THAT SPEAKS. IMPACT THAT LASTS.

Industries We Serve

**SMARTER SOLUTIONS FOR HOSPITALS,
CLINICS & ALLIED SECTORS.**

- Hospitals & Multispecialty Healthcare Groups
- IVF Clinics & Reproductive Healthcare Centers
- Dental Clinics & Chains
- Diagnostic Centers / Radiology / Pathology Labs
- Home Healthcare Providers
- Daycare & Specialty Surgical Centers
- Telehealth & Virtual Clinic Startups

projects

Our Unique Strengths

DRIVEN BY EXPERTISE.
DEFINED BY EXCELLENCE.

Security & Compliance

Role-based access, audit logs, encryption, healthcare compliance frameworks.

Healthcare-first Engineering Team

Experts in clinical, nursing, administrative, and financial workflows.

Future-Ready Ecosystem

AI, cloud-native systems, API-driven architecture for integrations.

Minimal Training, High Adaptability

Built for real users — intuitive UI and easy adoption.

Global Presence

Delivering solutions tailored to regional regulations and cultural workflows.

Technical Architecture

A ROBUST ARCHITECTURE FOR A SMARTER TOMORROW.

Key Architectural Capabilities

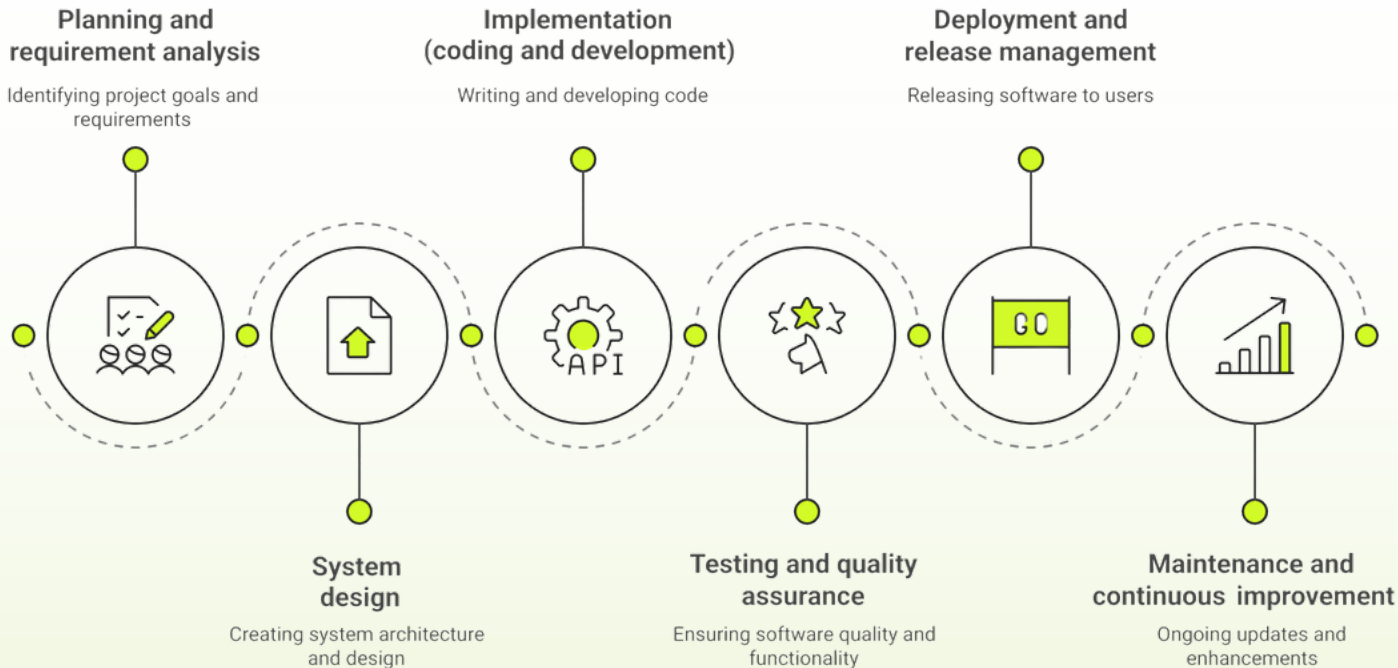

- ABDM guidelines
- NABL / NABH support
- HL7 / FHIR integration
- HIPAA-aligned practices
- ISO-aligned quality processes

Security Measures

- End-to-end encryption
- Secure database architecture
- Regular vulnerability assessments
- Audit logs & tracking
- Role-based access control (RBAC)

Project Execution Approach

A STRUCTURED APPROACH FOR GUARANTEED SUCCESS.

Plan. Build. Deliver.

Service & Support

SUPPORT THAT KEEPS YOUR BUSINESS MOVING.

- 24/7 hotline support
- Dedicated relationship manager
- Ticketing system
- On-site support for go-live
- Online training modules
- Quarterly updates
