TELEMEDICINE MANAGEMENT SYSTEM

**Hospital Care Reimagined.
Virtual Capabilities to Enhance Care.**

www.thegemini.co.in

Leveraging the latest in digital technology, **The Gemini Telemedicine management System** is a customizable solution incorporating virtual consultation and coordination services to help you provide safe, high quality TeleHealth to everyone

Every one deserves equal access to healthcare. Whether someone lives in a remote area or simply doesn't have the capacity to visit a clinician, The Gemini can help fill your healthcare gaps with a TeleHealth program tailored to your needs.

We can help you to coordinate and connect your patients with doctors, specialists and allied health professionals via our **Telemedicine management System**.

PATIENT

- Getting updates on what they can do to optimize the self-care aspect of their rehabilitation.
- Having access to a platform to communicate with their support network, buddies and clinical teams.
- Avoid unnecessary Outpatient appointments and hospital stays
- Enjoy a service availability irrespective of location

CLINICIANS

- Perform data manipulation and visualization in a secure environment
- Ability to measure patient behavioral compliance with prescribed treatment
- Have access to low integrity data and better integration of community resources

HOSPITAL

- Improve outcomes and experiences for patients
- Reduce demand for resources including beds, x-rays and clinician time
- Improve risk management from earlier identification of complications, reduced level of complaints and better evidence of the level of care provided.
